

BVS-OCP-MAX

DIRECT DUST SOURCE REMOVAL TOOL

Advantages:

- Capture tool for contaminated (asbestos, silicate) or non-contaminated dust; connected with a HEPA vacuum
- Because of the negative pressure generated by the vacuum the BVS OCP Max can support its weight on vertical or horizontal surfaces
- Soft but resistant gasket on inlet
- Quick and easy connection for vacuum hose
- Can be used on vertical or horizontal surfaces
- Comes in two sizes
